

Physician's Warranty of Vaccine Safety

I (Physician's name, degree) _____, _____

I am a physician licensed to practice medicine in the Country of _____.

My Professional Organisation is _____,

and my membership/ license number is _____.

My medical specialty is _____

I have a thorough understanding of the risks and benefits of all the medications that I prescribe for or administer to my patients. In the case of (Patient's name) _____, age _____, whom I have examined, I find that certain risk factors exist that justify the recommended vaccinations. The following is a list of said risk factors and the vaccinations that will protect against them:

Risk Factor _____

Vaccination _____

Risk Factor _____

Vaccination _____

Risk Factor _____

Vaccination _____

Risk Factor _____

Vaccination _____

Risk Factor _____

Vaccination _____

Risk Factor _____

Vaccination _____

I am aware that vaccines typically contain many of the following fillers:

- * aluminum hydroxide
- * aluminum phosphate
- * ammonium sulfate
- * amphotericin B
- * animal tissues: pig blood, horse blood, rabbit brain,
- * dog kidney, monkey kidney,
- * chick embryo, chicken egg, duck egg
- * calf (bovine) serum
- * betapropiolactone

- * fetal bovine serum
- * formaldehyde
- * formalin
- * gelatin
- * glycerol
- * human diploid cells (originating from human aborted fetal tissue)
- * hydrolized gelatin
- * mercury thimerosal (thimerosal, Merthiolate(r))
- * monosodium glutamate (MSG)
- * neomycin
- * neomycin sulfate
- * phenol red indicator
- * phenoxyethanol (antifreeze)
- * potassium diphosphate
- * potassium monophosphate
- * polymyxin B
- * polysorbate 20
- * polysorbate 80
- * porcine (pig) pancreatic hydrolysate of casein
- * residual MRC5 proteins
- * sorbitol

- * squalene
- * tri(n)butylphosphate,
- * VERO cells, a continuous line of monkey kidney cells, and
- * washed sheep red blood

and, hereby, warrant that these ingredients are safe for injection into the body of my patient. I have researched reports to the contrary, such as reports that mercury thimerosal causes severe neurological and immunological damage, and find that they are not credible.

I am aware that some vaccines have been found to have been contaminated with Simian Virus 40 (SV 40) and that SV 40 is causally linked by some researchers to non-Hodgkin's lymphoma and mesotheliomas in humans as well as in experimental animals. I hereby warrant that the vaccines I employ in my practice do not contain SV 40 or any other live viruses. (Alternately, I hereby warrant that said SV-40 virus or other viruses pose no substantive risk to my patient.)

I hereby warrant that the vaccines I am recommending for the care of (Patient's name) _____ do not contain any tissue from aborted human babies (also known as "fetuses").
